

First PRIPARE advisory board consultation

Wednesday 21st May 2014, Thursday 22nd May 2014

Athens

The PRIPARE project organised an advisory board consultation during the 2014 annual privacy forum (<http://privacyforum.eu/>) and CSP forum (<http://www.cspforum.eu/2014>) which took place in May 2014 in Athens

The following persons were invited:

- Dawn Jutla, from Saint Mary's University, Halifax, Nova Scotia. Dawn is a member of the Board of Directors for OASIS.. She co-chairs Dr. Ann Cavoukian the OASIS Privacy by Design for Software Engineers (PbD-SE) Technical Committee. She also contributed to the OASIS Privacy Management Reference Model draft specification. Dawn Jutla brought to PRIPARE the standardisation perspective.
- Claudia Diaz from the Computer Security and Industrial Cryptography (COSIC) research group at the KU. Leuven, where she coordinates the Privacy and Identity Management subgroup. Claudia Diaz brought to PRIPARE the privacy engineering perspective.
- Rodica Tirtea, Expert in network and security at ENISA. Rodica Tirtea provided the European security policy perspective.
- Daria Catalui deals with Network and Information Security in Education, stakeholder management and outreach strategies at ENISA. Daria Catalui, provided the European security policy perspective with a focus on education.

The advisory consultation included several parts:

- Claudia Diaz and Dawn Jutla were invited to make a presentation in a specific session of the CSP forum entitled *How to Transform Principles into Engineering Requirements?* The session was chaired by PRIPARE coordinator. Claudia Diaz made a presentation entitled *Engineering Privacy by Design*¹. Dawn Jutla made a presentation entitled *Overview of the OASIS PbD-SE and PMRM emerging privacy standards*².
- A first series of short consultations with Dawn Jutla, Rodica Tirtea, Daria Catalui took place on Wednesday. It involved
 - a presentation of WP1 (methodology) with Alberto Crespo and Nicolas Notarion (ATOS),
 - a presentation of WP2 (best practice) with Hisain Elshaafi (Watford institute of technology),
 - and a presentation of WP3 (training) with Frank Kargl (U.Ulm).
- A second series of short consultations with Rodica Tirtea, Claudia Diaz took place on Thursday. It involved
 - a presentation of WP4 (educational material) with Claudia Roda and Susan Perry (American University in Paris),
 - a presentation of WP5 (research gaps) with Carmela Troncoso (Gradient).

The advisory consultation was beneficial as it confirmed the following:

- directions taken for the specification of a PbD methodology was consistent with the view of the advisory board members;
- the PRIPARE PbD methodology could be a significant contribution to the OASIS PbD-SE TC. Further liaison will take place with OASIS (the PRIPARE coordinator is a member of the PbD-SE TC);
- education material is important not only for engineering students but also for policy people. Further liaison will take place with ENISA (through WP5 leaders)
